Audit of Proactive Disclosure
under the Right to Information Act, 2005
- A Toolkit
AUDIT OF PROACTIVE DISCLOSURE UNDER THE RIGHT TO INFORMATION ACT, 2005 – A TOOLKIT
Published by the Centre for Good Governance (CGG),
Road No. 25 Jubilee Hills
Hyderabad 500033 Andhra Pradesh (India) under the Capacity Building for Access to Information Project. For comments and suggestions, please contact: nia@cgg.gov.in

While all efforts have been made to make this Manual as accurate and elaborate as possible, the information given in this book is merely for reference and must not be taken as binding in any way. This Manual is intended to provide guidance to the readers, but cannot be a substitute for the Act and the Rules made thereunder.

www.rti.org.in
“In a Government of responsibility like ours where the agents of the public must be responsible for their conduct, there can be but a few secrets. The people of this country have a right to know every public act, everything that is done in a public way by their public functionaries. They are entitled to know the particulars of every public transaction in all its bearings”

- The Supreme Court of India in *State of UP v Raj Narain* (1975)

1. About the Toolkit

What does the Toolkit provide?

This toolkit provides a simple, user-friendly and generic methodology for undertaking audit of proactive disclosure made by any public authority under the RTI Act, 2005.

Benefits of the Toolkit

By using the toolkit, one can:

- Assess the quality of proactive disclosure in both qualitative & quantitative terms; and therefore
- Benchmark public authorities on the quality of proactive disclosure.

Who can use the Toolkit?

- Citizens
- Information Commissions
- Public Authorities
- Civil Society Organisations
2. RTI Act 2005 and Proactive Disclosure

The Right to Information Act, 2005 seeks to provide for setting out the practical regime of right to information for citizens to secure access to information under the control of public authorities, in order to promote transparency and accountability in the working of every public authority.

An important aspect of the Act pertains to the obligation of public authorities to proactively disclose information to the public. The RTI Act mandates every public authority to:

- Disclose information as required under the 17 sub-clauses of section 4 (1) (b).
- Publish all relevant facts while formulating important policies or announcing the decisions which affect public [Section 4(1) (c)]
- Provide reasons for its administrative or quasi-judicial decisions to affected persons [Section 4(1) (d)]
- Update the information provided under Section 4(1) (b) every year. [Section 4(1) (b)(xvii)]
- Take steps to provide the information suo motu to the public at regular intervals so that public has minimum resort to the use of this Act to obtain information. [Section 4(2)]
- Disseminate information widely and in a form and manner easily accessible to the public. [Section 4(3)]
- Provide information in the local language and adopt the most effective method of communication for dissemination of information.
- Make information accessible to the extent possible in electronic format with the concerned Public Information Officer, available free of cost or at such cost of the medium or the prescribed print cost price. [Section 4(4)]

Means of dissemination
- Notice Boards
- Newspapers
- Public announcements
- Media broadcasts
- Internet
- Any other means including inspection of offices of any public authority.
Under **Section 4(1) (b)**, every public authority is mandated to publish the following categories of information within one hundred and twenty days from the enactment of the Act,-

1. Particulars of the Public Authority  
2. Powers & duties of officers & employees  
3. Procedure followed in decision making  
4. Norms for discharge of functions  
5. Rules, regulations, instructions, manuals and records under its control/ used by employees while discharging functions  
6. Categories of documents held by the Authority or which are under its control  
7. Arrangement for consultation with or representation by the members of the public in relation to the formulation of policy or implementation thereof  
8. Boards, Councils, Committees and Other Bodies constituted as part of the Public  
9. Directory of Officers and employees  
10. Monthly Remuneration received by officers & employees including system of compensation  
11. Budget allocated to each agency including all plans, proposed expenditures and reports on disbursements made etc.  
12. Manner of execution of subsidy programmes  
13. Particulars of recipients of concessions, permits or authorisation granted by the Public Authority  
14. Information available in electronic form  
15. Particulars of facilities available to citizens for obtaining information  
16. Names, designations and other particulars of public information officers  
17. Any other useful information.
3. Why Audit of Proactive Disclosure is required

In practice, however, it has been observed that, implementation of proactive disclosure under the Act by public authorities has been rather patchy and of poor quality. The following issues regarding proactive disclosure need to be addressed.

- Total Non-disclosure/ Non-compliance
- Partial disclosure
- Not updating information in time
- Poor efforts at dissemination of information

To address these issues, there is need for regular audit of the quality of proactive disclosure made by Public Authorities under the provisions of the RTI Act.

Audit of Proactive Disclosure is important as it can .................

a. Foster better compliance with the provisions of the RTI Act relating to proactive disclosure
b. Help identify information gaps in the proactive disclosure of public authorities

........................................ and thereby inculcate a culture of transparency and openness in the functioning of public authorities.
4. Audit Methodology

4.1 Classification of Disclosure Parameters

There is need to identify and categorise parameters of disclosure with the view to segregate them on the basis of their relative importance. Based on a rational examination of the provisions for proactive disclosure, the parameters of disclosure have been segregated into three basic categories. Based on the relative importance of the three categories, different weightages have been accorded to the different categories which will be used as part of the quantitative assessment of proactive disclosure made by the public authority being audited.

<table>
<thead>
<tr>
<th>Sl. No.</th>
<th>Category</th>
<th>Importance</th>
<th>Reasons why</th>
<th>Weightage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>A Category</td>
<td>High</td>
<td>Information on these parameters has high relevance for the public.</td>
<td>0.5</td>
</tr>
<tr>
<td>2.</td>
<td>B Category</td>
<td>Medium</td>
<td>Information on these parameters may have reasonable importance for the public.</td>
<td>0.3</td>
</tr>
<tr>
<td>3.</td>
<td>C Category</td>
<td>Low</td>
<td>Information on these parameters has relatively low/limited relevance for the public (or both).</td>
<td>0.2</td>
</tr>
</tbody>
</table>

The methodology involves assessment of quality of proactive disclosure on **25 parameters**.

- There are **10** A Category parameters for assessment
- There are **8** B Category parameters for assessment
- There are **7** C Category parameters for assessment
<table>
<thead>
<tr>

<tr>
<td>9. Are important policies or decisions which affect public informed to them? [Section 4(1) (c)]</td>
<td></td>
<td></td>
</tr>
<tr>
<td>10. Are reasons for administrative or quasi-judicial decisions taken, communicated to affected persons [Section 4(1) (d)]</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
The methodology involves both quantitative & qualitative assessments.

### 4.2 Quantitative Assessment

- For each of the generic & specific indicator/parameter, a **3-point quantitative rating scale** (0:1:2) has been evolved to assess quality/extent of compliance on that parameter. A higher score indicates better compliance on that parameter and vice-versa.

- Add the Scores across all parameters within a particular category to get the **Category Score** (A, B or C).

- Calculate the **Maximum Possible Category Score** for the category of parameters. If any parameter is *not applicable* for a public authority, then the maximum possible score to be considered will be accordingly reduced by an amount of 2 times the no. of parameters not applicable.
  
  - For example: For A Category parameters, maximum possible score is 20 (10 x 2) if all parameters are applicable. In case one parameter does not apply to the public authority, maximum possible score for the category will be 18 (9 x 2).

- Calculate the **Category Percentage** for each category of parameters which is simply the category score as a proportion of maximum possible category score.
  
  - For example: If the Category Score on A Category parameters is 14 and the maximum possible category score is 20 (i.e. all parameters apply) then the Category Percentage is 14/20 (x 100) = 70%.

- Lastly, apply the **weightages** (i.e. 0.5 for Category A, 0.3 for Category B and 0.2 for Category C) to the respective category percentages to generate the **Weighted Category Percentages**.
For example: If the Category Percentages for A, B & C parameters are 50%, 60% & 70% respectively, the Weighted Category Percentages would be:

- A Category: 50% x 0.5 = 25%
- B Category: 60% x 0.3 = 18%
- C Category: 70% x 0.2 = 14%

Add the weighted category percentages to get the Final Score.

For example: In the case above, the final score would be 25%+18%+14% = 57%

Identify the Grade that the public authority falls into on the basis of the Final Score obtained. The table below provides the grading methodology.

<table>
<thead>
<tr>
<th>GRADES</th>
<th>FINAL SCORE</th>
<th>WHAT DOES IT MEAN?</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>81%-100% of Maximum Possible</td>
<td>Highly Transparent &amp; RTI compliant</td>
</tr>
<tr>
<td>B</td>
<td>61%-80% of Maximum possible</td>
<td>Reasonably Transparent &amp; RTI compliant</td>
</tr>
<tr>
<td>C</td>
<td>41%-60% of Maximum possible</td>
<td>Limited transparency &amp; compliance with RTI</td>
</tr>
<tr>
<td>D</td>
<td>0-40% of Maximum possible</td>
<td>Poor levels of transparency &amp; compliance with RTI</td>
</tr>
</tbody>
</table>

For example: In the case above, the public authority would be graded as `C' as the final score (57%) lies between 41%-60%.
4.3 Qualitative Assessment

On each parameter, qualitative observations can be recorded in order to:

a. validate the rating given on that parameter;

b. record observations & inferences; and

c. identify information gaps on various parameters of disclosure.

The auditor needs to remember the following points while recording the qualitative remarks on each parameter.

- Please provide proper & clear remarks or directions - do not give ambiguous statements.
- You may record detailed remarks on any parameter if you feel it is warranted - you may attach additional sheets to the audit proforma.
- Try as much as possible to give actionable directions/suggestions so that the public authority can initiate action in that regard easily.
- When pointing out information gaps, please check with the public authority whether that information exists or whether such information can be compiled by the public authority.

The auditor may also record any other observations or remarks at the overall level, after the completion of assessment on all parameters.
5. Audit Proforma

Date: ____________  
Name & Signature of the Auditor: ______________
6. Audit Process

1. Understand the Public Authority
   - Mission & objectives of the public authority
   - Functions and activities undertaken by the public authority and its units
   - Organisational structure and decision-making processes
   - Sources of finance, budget & expenditure
   - ..............

2. Examine disclosure records
   - What documents have been published by the public authority?
   - How to source the documents? Which officials to meet?
   - Draw up a checklist of information that the public authority could disclose

3. Conduct Audit
   - Identify indicators that are not applicable?
   - Identify information gaps - information available with public authority but not disclosed
   - Assess the quality of disclosure on generic & specific parameters
   - Grade the public authority

4. Post-Audit Activities
   - Compare audit score of public authority with other public authorities
   - Communicate audit score, grade and information gaps to the public authority
   - Provide recommendations for improving the quality of disclosure
7. Case Study: Rural Development Department, Government of Andhra Pradesh

This is a sample audit of proactive disclosure for the Department of Rural Development, Government of Andhra Pradesh. It is done purely for the purpose of illustration for the audit toolkit and, therefore, cannot be taken as a true reflection of the quality of proactive disclosure done by the Public Authority under the RTI Act 2005.

For conducting this audit, we have used the Information Handbook prepared by the Department under Section 4 (1)(b) of the RTI Act. We have also referred other documents disclosed through the Departmental website.

This case study is for illustration purpose only.

Audit Proforma

Name of Public Authority being audited: Department of Rural Development, Government of Andhra Pradesh
Address: A.P. Secretariat, Hyderabad; www.rd.ap.gov.in

Documents Referred:

1. Information Handbook (Volume 1)
2. Information Handbook (Volume 2)
3. Other documents available on the department website

Any other Observations/Remarks:

The extent and quality of disclosure on the Departmental website is very good. The website gives detailed information on various activities, programmes & schemes (and budgets) being taken up by the Department and its various agencies. However, the information handbook prepared by the Department u/s 4(1) (b) contains limited information in this regard and this could be made more extensive.

Introduction to Volume I of the Information Manual of the Department says the information has been provided in two volumes. However, only volume I has been properly disseminated. The department may take steps to disseminate Volume II at the earliest.

The Information Manual requires to be updated. The Department must adopt a practice of updating the Information Manual on an annual and regular basis as per the Act.

The Department had provided agency/programme wise details. Instead, it could actually break the Information Manual into 17 different chapters as per the RTI Act and provide details of a particular aspect as given in the sub-clause for each agency.

Date: April 25, 2008

8. Points to Remember

- Assessment of proactive disclosures must be based on **objective** evaluation only. Refrain from making arbitrary remarks/observations and awarding scores on the basis of a biased or opinionated judgment.

- Before assessing a public authority, **follow the audit process** explained above. Understand the public authority; examine the records/documents published by the authority and map the information that the authority must disclose under the Right to Information Act.

- Check each indicator **whether it is applicable** for the public authority and then use the audit proforma to assess the quality of disclosure. In case of uncertainty, exclude the parameter from assessment and reduce the maximum possible score accordingly.

- Remember to **validate** each of your ratings and give appropriate reasons for each of your rating.

- Focus on highlighting the **gaps in information disclosure** so that the public authority would be benefited from the audit and not intimidated by this exercise.

- This exercise could be **repeated regularly** so that audit of proactive disclosures becomes a standardized method of checking/monitoring the implementation of the relevant provisions of the RTI Act.
