VIRTUO ATTENDANCE MOBILE APP

NON-BIOMETRIC
Contactless
Attendance System

Powered by

About App

"VirtuO – Attendance Mobile App" is a Contactless Attendance System, which allows employees of CGG to mark their attendance from their mobile device.

The concept behind this app at this tough time of COVID-19 panic is to help both the employees and management to be on the same page by tracking and monitoring the working hours and location of the employees even when they log-in from remote areas & client locations.

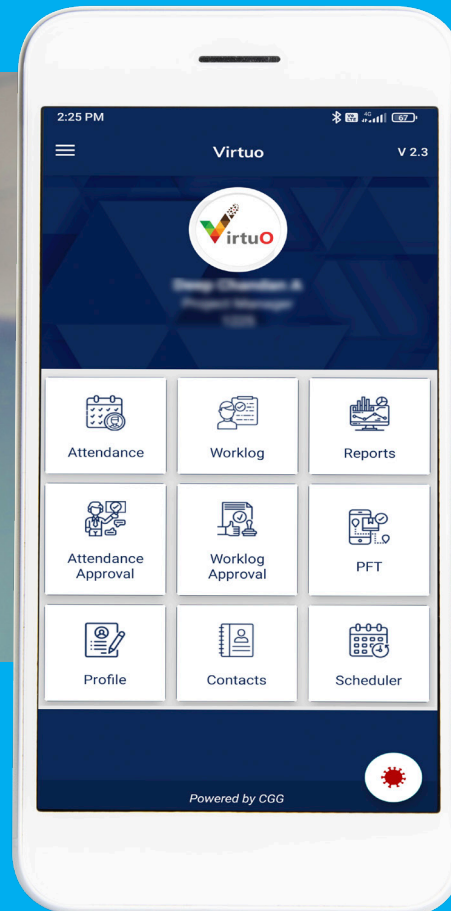

Features

- One click attendance for Punch In & Punch Out
- Using Geo-fencing permit employees to mark attendance from client location and multiple office locations
- Very useful to mark attendance for WFH employees
- Mobile app for both Android & iPhone users
- Real-time dashboard for monitoring

- The app is being used by 350 employees of CGG
- With the use of VirtuO Attendance app the efficiency and productivity of employees have increased by an enormous extent.
- It eliminates buddy punching, inaccurate time reporting, absenteeism and over payments
- Administrative time effectively spent on monitoring and managing employees with real time dashboard
- This app is way more secured than biometric and punching machines as we get real-time data about employees.

This is an innovative e-Governance solution designed & developed by **CGG** to address the issues related to attendance and its dependency activities such as payroll and worklogs

This product is adaptable and easily scalable, considering the number of options present for customizations, for any organization.
